

The Silent Majority...

You know abortion is killing our next generation. These small voices must be heard, not only here but at the ballot box as well.

The Constitution Party is the state's only 100% Pro-Life party. We are dedicated to giving the silent majority a loud voice in our government.

We need your help! The big party politics no longer represent this voice, but by voting for and supporting **Constitution Party Candidates** on every level, you will help to end this holocaust.

There are local party organizations in our state...won't you join us in this fight?
