

The Burden of Taxes...

- ★ **Reduce the Government to Constitutional size,**
- ★ **Eliminate the tax code**
- ★ **Replace it with a tariff system.**

Once enacted, the reduction of the tax burden will greatly impact freedom and prosperity across our nation.

The Constitution Party recognizes that every extraction of taxes deprives people of not only money, but labor, time and freedom. The Present system of direct taxation, coupled with out-of-control government spending has resulted in levels of taxation far exceeding those resisted by our founding fathers. There are local party organizations in our state...won't you join us in this fight?
